### Setting High Standards

Recruiting is what we do best at Dunhill Staffing Systems. Building relationships is what we do second best. So naturally we can provide you with extensive choices of quality temporary and temp-to-hire candidates — those who have chosen to lead flexible lifestyles. To us it's all about chemistry and fit, and we know our clients will appreciate that.

To ensure that our staffing candidates can perform to our highest standards, they are extensively screened and evaluated to verify skill levels before we introduce them to you. By conducting in-depth interviews with every candidate, we are confident of our selections on your behalf. We are always looking for someone who will fit within your corporate culture, as well as perform the necessary tasks.

Once we are confident that we have found an exemplary candidate, we work diligently to keep him or her active within our

network. We do this by offering competitive compensation, incentive bonuses and attractive benefits packages. Professionals who choose to work for the Dunhill network embrace our Code of Ethics, which emphasizes reliability, productivity, excellence and responsibility. We insist upon it.

Because we also recognize the value of continuous professional development, we provide training programs to our field employees. It's a value-added incentive that not only benefits you, but enables our professionals to grow individually.

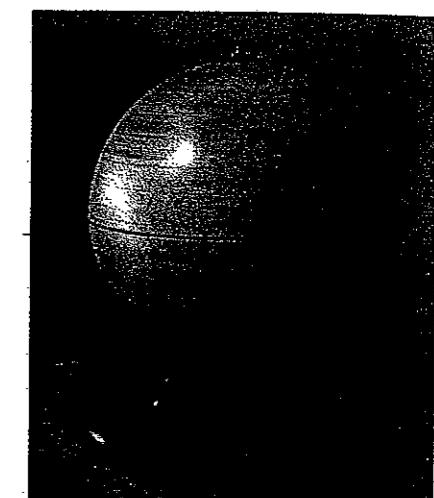

We stand by the professionals we place. In fact, part of the Dunhill difference is our unique guarantee. If the candidate should not meet your needs or expectations, simply call us immediately and we'll send over a replacement. In a perfect world, we'd make a perfect match every time. As realists, we know that we have to prepare for a range of circumstances.

### A Powerful Network

Every day, more than three million people are working in flexible staffing positions. In fact, 95% of all U.S. companies use temporary employees on a regular basis; and over the last decade, the temporary staffing industry's size has quadrupled.

At some point your business will demand temporary staffing support. At Dunhill we cater to your needs with personal attention and immediate response with our temporary and temp-to-hire solutions. While receiving the personal, relationship-driven service of a local business, you'll also benefit from the resources of a dynamic, international corporation.

Our exemplary reputation attracts unique candidates with a diverse range of skill levels and experience. With competitive salaries, attractive compensation packages and training incentives, we retain motivated temporary staff who not only meet, but exceed expectations.

At Dunhill we have an international network, extensive industry contacts and recruiting professionals who can match the right people with the right tasks. Right now.

"When it comes to personalized service, efficiency and overall quality, I have found no comparison to Dunhill Staffing Systems. Their attention to detail for my needs, their sense of urgency and their follow-up was exceptional."

*Deb Ackles, Manager, Client Services, Blessing White*

"The staff at Dunhill is extremely prompt and friendly. They follow up right away and always sound like they have a smile in their voice. The best part is everyone is able to help when you call...you don't have to wait to talk to one specific person. The difference in Dunhill is that they will fix it."
